Suzanne Schadel

Each year, we recognize one or more individuals who demonstrate a level of effort or school spirit that goes beyond raising the most money or running the most laps.

Suzanne has a condition that makes it very painful to run. She would have been able to walk the jog-a-thon, but instead swam laps in the pool during the family picnic. With Mr. Holstrom observing, she swam all alone and completed 60 laps.

Because her pledges were per lap, this then made it possible for her to raise a considerable amount of money and contribute in a way that showed exceptional school spirit!
